

# Tune your car for driving through the atmosphere by adjusting how heat evaporates into the air.

## Heat from:

- Tire Valve stem caps ●
- Exhaust system ●
- Shock absorbers ●
- Motor area ●
- Wheels ●
- Drive line ●
- Front Lights ●

PEP Tire Valves

PEP Exhaust Tape  
Used on pipes, hoses and aluminum/  
chrome rims

PEP Line Tape  
Used on wires

PEP Paint Polish  
Used on head lights

PEP High Temp.  
Exhaust Paint  
Used on the exhaust system, shock  
absorbers and drive line

Together with PEP there will be less micro fine particles wearing off your car and getting into the air you breath.

Perform-Max Energy Products Inc. research shows that car owners can save \$1500 dollars per year in excessive repairs.

***You will love the way your car drives!***

**Price \$240** (Vehicle: makes, years and driver's could vary this savings amount)
