

Protect the passengers from electro-radiations by tuning your car for driving through the atmosphere by adjusting how heat evaporates into the air.

Other applications:

- Tire Valve stem caps
- Exhaust system
- Shock absorbers
- Motor area
- Wheels
- Drive line
- Front Lights

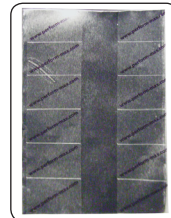

Engine electro magnetic block
vinyl tag
Place in glove box wall.

PEP Tire Valves

\$69.95
car kit

1) silver tape - Cut and use on: Tire air valves - (see sample application photo); cut square to apply on disc brake pad mounts; Cut - with zap strap, hang from shock absorber (one per set of shocks) or set of squeeze brake systems. Made of 3M Aluminum Aircraft Tape

2) Figure 8 assembly hangs at exact centre point of bicycle (sprocket pt. area); made of plastic tubing in a figure 8 form is a infinity balancer of negative and positive ions.

\$69.95
bike kit

Driving faster than the earth's simple ground waves produces electro-radiation (heat produce causes resistance and parts to wear faster). RE - Nikola Tesla and Albert Einstein

Together with PEP there will be less micro fine particles wearing off your car and getting into the air you breath. Perform-Max Energy Products Inc. research shows that arthritic car owners can save per year in excessive repairs and smooth their ride.

You will love the way your car drives!

Price \$69.95 (Vehicle: makes, years and driver's could vary this savings amount)
